Elkay® Plastics Co., Inc.

Elkay® Plastics

THE ELKAY® ADVANTAGE

For 50 years, Elkay® Plastics has been the leader in flexible poly packaging, thanks to our outstanding product quality, vast selection, expansive distribution network and unmatched customer sales support. But perhaps the greatest key to Elkay's success is our relationship with our distributor partners. Because Elkay sells exclusively through distribution, we're focused on contributing to our distributor's success and helping them grow their poly bag business.

Major advantages that Elkay® Plastics provides to its Distributors to help them succeed include:

- **SELECTION & AVAILABILITY to meet all your customers' needs.** We provide immediate availability of our vast array of nearly 3,000 in-stock products. Eight distribution facilities around the US allow us to service 80% of the country with same day or next day delivery, and the remaining territory with two day delivery. Our excellent product fill rates allow us to ship your order complete in as little as three hours.

- **HIGHEST QUALITY, consistent product you can count on.** Superior product quality and integrity ensure our products are consistently free from defects. Rigorous quality and certification standards such as ISO 9001:2008*, CFIA and Annual Food Safety Audits ensure our processes are consistent in order to always meet or exceed customer expectations. Our C-TPAT certification strengthens the reliability of our supply chain to help ensure product availability in addition to helping to ensure the safety and security of our employees, business partners and customers. *Los Angeles, Atlanta and Chicago divisions

- **TRADE AGREEMENTS ACT (TAA)-Compliant Healthcare Products.** Elkay Plastics now has 188 TAA-compliant Healthcare products that meet Federal Acquisition Regulations (FAR) requirements in order to be sold to the Department of Defense, Veterans Integrated Service Networks and other US federal & state and county government agencies.

- **CUSTOMER-FRIENDLY packaging that saves time and money.** Many of our bags are shipped in cartons with individually labeled inner packs, ensuring that the products you receive are clean, orderly and organized every time. Our dispensing system improves your customers' cost control, facilitates inventory management and minimizes waste.

- **LOW PREPAID ORDER MINIMUMS allow you to order on your schedule.** Your warehouse space is precious. Our competitively priced products have low order minimums so you can order the products you need, in the quantities you need, when you need them.

- **CUSTOM MANUFACTURING when a special bag is required.** Regardless of whether you need many containers of custom bags delivered directly to your customer or a short run of a few thousand custom printed bags, Elkay has the resources to deliver both quality and value. With the ability to print up to eight colors per side and a broad selection of materials, additives and configurations to choose from, Elkay can make your most elaborate designs a reality.

- **MODERN TECHNOLOGY that makes your life easier.** Elkay's mobile-friendly website, www.elkayplastics.com provides immediate access to pricing, product information, invoice history, UPS tracking, and order placement, even when you're on the go. It's also the home of our exclusive e-Brochure feature, which allows you to build customized product literature to help you sell more effectively. Elkay® University (www.elkayuniversity.com) is an online training module that helps Distributor Sales Reps to learn about poly bags and how they're used in industry-specific product applications for Foodservice and Healthcare to expand sales opportunities in these areas.

BAG MATERIALS

LLDPE (TUF-R® LINEAR LOW DENSITY POLYETHYLENE): Provides superior strength in a lighter gauge than LDPE, resulting in significant cost savings and resource reduction.

LDPE (LOW DENSITY POLYETHYLENE): Provides excellent protection for everyday use at a great price.

HDPE (HIGH DENSITY POLYETHYLENE): Light weight and high strength at an affordable cost make these bags an excellent choice for all purpose bags, merchandise bags and t-sacks.

PP (POLYPROPYLENE): Provides superior clarity with good strength. Excellent for food storage and retail presentation.

BAG MATERIALS

POLYETHYLENE BAGS (LDPE): These are the most common plastic bags. Elkay polyethylene bags are made from virgin materials, so they comply with FDA requirements for use in food applications. A wide selection of sizes and gauges are available to meet virtually any need you might have.

Available in the following bag styles:

- Flat
- Seal Top
- Covers & Tarps
- Utility Bags on Rolls
- Gusseted
- Header Pak®
- Trash Bags
- Drawstring
- Tubing
- Kwik-Fill®
- Mattress Bags

TUF-R® LINEAR LOW DENSITY BAGS (LLDPE):

Made from a unique blend of linear low density and low density resins that often allows a thinner gauge bag to provide the same or better strength and puncture resistance as a standard low density bag of a higher gauge. Meet FDA requirements for food use.

Available in the following bag styles:

- Flat
- Gusseted
- Kwik-Fill® Bags on Rolls

POLYPROPYLENE BAGS (PP): Polypropylene bags have long been the premier choice for outstanding product presentation and to preserve freshness. Excellent clarity, vapor and moisture barrier properties. Meet FDA requirements for food use.

Available in the following bag styles:

- Flat
- Gusseted
- Seal Top
- Drawstring

HIGH DENSITY (HDPE): High molecular weight, high density film makes these bags strong and durable. Ideal for shopping bags. Several of these bags are packaged in a low cube dispenser carton that is easy to use at the retail counter and stores easily on shelves. Meet FDA requirements for food use.

Available in the following bag styles:

- Merchandise Bags
- T-Shirt Bags
- Utility Bags on Rolls

STATIC CONTROL BAGS

PINK ANTI-STATIC (PAS): Pink Anti-Static bags are an excellent choice when static control is necessary, but Faraday Cage Protection is NOT required. They effectively eliminate the hazard of static damage to sensitive electronic components during packaging, storage and shipping.

Available in the following bag styles:

- Flat
- Seal Top
- Tubing

STRATOGREY™ Buried metal construction provides double protection against static discharge. Amine/amide-free interior with semi-transparent material allows for protection and easy identification of contents. These bags are not QPL certified.

Available in the following bag styles:

- Flat
- Seal Top

Some things are forever.
Your Take Out Bag
doesn't have to be
one of them.

d2w® additive is a recyclable, FDA compliant additive that can help reduce the life span of poly bags that are exposed to the open environment.

Put this remarkable technology to work for you
today and enjoy a cleaner tomorrow.

* Timeline depends on environmental factors and may not necessarily be less than a year.
Please dispose of all waste responsibly.
Not for composting.
If it will break down in a landfill.

so you can get more done while on
the go!

ELKAY® PLASTICS HAS THE RIGHT PRICED SOLUTIONS TO HELP YOU SELL!

TUF-R® BAGS - LOWER COST without sacrificing PERFORMANCE!

- TUF-R® bags have superior strength that allows a lighter gauge TUF-R® bag to do the job of a heavier gauge LDPE bag.
- TUF-R® bags have superior clarity thanks to their unique resin blend.
- Because TUF-R® bags are bottom sealed and not side sealed like some competitor's bags, they have the strength you need for your most demanding applications.
- TUF-R® bags are made with virgin resin, so they meet FDA requirements for use with food products.

VALUE PLUS SEAL TOP BAGS

You don't have to sacrifice quality for price! Elkay's new 1.4 mil Value Plus zipper bags have the same quality features that you've come to expect from Elkay.

- Value Plus Seal Top bags are an excellent choice for general storage
- Packaged in individually labelled inner dispenser packs
- Fifteen popular sizes available to choose from
- Meet FDA requirements for use in food applications

See page 23 for our complete selection of Value Plus zipper bags.

SECTION 1 TUF-R® PERFORMANCE RATED BAGS

TUF-R® BAGS

LOWER COST without sacrificing PERFORMANCE!

Use a lighter gauge TUF-R® bag instead of a heavier gauge LDPE bag for real cost savings and lower environmental impact. Elkay's TUF-R® bags perform as well as or better than heavier gauge low density bags thanks to their unique resin blend. Put them to the test today and discover how much money you can save with TUF-R®.

Compare TUF-R® bags and it's easy to see the difference:

- TUF-R® bags have superior strength that allows a lighter gauge TUF-R® bag to do the job of a heavier gauge LDPE bag.
- TUF-R® bags have superior clarity thanks to their unique resin blend.
- Because TUF-R® bags are bottom sealed and not side sealed like some competitor's bags, they have the strength you need for your most demanding applications.
- TUF-R® bags 15" wide and under are packaged in inner packs of 100 bags each for convenience and cleanliness and to reduce waste.
- Cases and inner packs are bar coded and clearly labeled for easy identification.

The Elkay® ADVANTAGE

ELKAY PACKAGING

Elkay packaging is second-to-none! Elkay bags are packaged in clearly labeled and bar-coded cartons to help your operation run more efficiently. Most of Elkay's case-packed bags 15 inches wide and under are packaged in individually-labeled inner dispenser packs for convenience, protection and to reduce waste.

The Elkay Way

A Leading Competitor

ASK YOURSELF: Which of these "identical" products would your customer rather package their products in?

TUF-R® BAGS the STRONG, ECONOMICAL CHOICE

Use a lighter gauge TUF-R® bag instead of a heavier gauge LDPE bag for real cost savings and lower environmental impact. Elkay's TUF-R® bags perform as well as or better than heavier gauge low density bags thanks to their unique resin blend. Put them to the test today and discover how much money you can save with TUF-R®.

This table shows the performance and potential cost savings relationships between TUF-R® and LDPE:

	LDPE:	TUF-R®:	Potential Cost Savings:
GUSSET BAGS	.9 - 1.25 mil	6G or 7G Standard	25% or More!
	1.25 - 2 mil	8G Heavy	
FLAT BAGS	1.25 - 1.5 mil	7F Standard	15% or More!
	2 - 3 mil	8F Heavy	
	3 - 4 mil	9F Extra Heavy	

Savings results may vary greatly. Customers should test and verify the appropriateness of any packaging material. Elkay cannot guarantee the performance of any of our products for any specific application. Samples are available upon request.

Elkay® and the Environment

Elkay® Plastics fully supports measures to increase sustainability and reduce our impact on the environment. In addition to corporate energy, waste and water-saving measures, some that you'll find in our products include:

- Practically all of Elkay's poly bags are recyclable, including those containing d2w® Controlled-Life Additive*
- d2w® Controlled-Life Additive is used in many of Elkay's Take Out Bags and T-Shirt Bags to help them break down more quickly if left in the open environment.
- Elkay's TUF-R® LLDPE bags promote source reduction by reducing the amount of resin needed to produce the bags

You can find out more about the steps that we're taking on our website, www.elkayplastics.com

*Except Poly-Nylon Vacuum Pouches

SECTION 2 POLYETHYLENE BAGS

2.1 POLYETHYLENE GUSSET BAGS

- Select the right material for the job ([See page 2](#))
LLDPE (Linear Low Density Polyethylene) Elkay's exclusive TUF-R® bags provide extra strength and impact resistance that allows a lighter gauge TUF-R® bag to do the same job as a heavier gauge LDPE bag. **LDPE (Low Density Polyethylene)** provides excellent protection for everyday use at a great price
- Made from seamless tubing and are bottom sealed for extra strength with no slits or side seal
- Bags 15" wide and under come in dispenser packs of 100 for cleanliness and convenience
- Meet FDA requirements for use in food applications
- Any size not listed can be custom made to your specifications ([See page 40 for more information](#))

2.3 POLYETHYLENE FLAT BAGS

- **LLDPE (Linear Low Density Polyethylene)** Elkay's exclusive TUF-R® bags provide extra strength and impact resistance that allows a lighter gauge TUF-R® bag to do the same job as a heavier gauge LDPE bag
- **LDPE (Low Density Polyethylene)** provides excellent protection for everyday use at a great price
- Made from seamless tubing and are bottom sealed for extra strength, with no slits or side seals
- Bags 15" wide and under come in dispenser packs of 100 for cleanliness and convenience
- Meet FDA requirements for use in food applications

2.5 LEAK PROOF BAGS (WITH EVA ADDITIVE)

- Elkay Leak Proof bags provide an excellent alternative to LDPE bags in many applications, especially for containing liquids or for use in low temperature environments
- Special EVA additive to prevent leakage
- Extra seal strength / Freezer-safe
- Increased puncture resistance

SECTION 3 POLYETHYLENE TUBING

3.1 LOW DENSITY POLYETHYLENE TUBING

- 100% virgin low density polyethylene
- Treated to allow for printing
- Meets FDA requirements for food use
- Excellent for packaging products of varying lengths
- Supplied on 12" diameter rolls (3" core)

SECTION 4 KWIK-FILL® BAGS

AUTOMATIC BAGS ON ROLLS

- Made with Elkay's exclusive TUF-R® resin for added strength
- Bags are made from seamless tubing and bottom sealed for extra strength, no side slit seals
- Industry standard core makes them compatible with all automatic packaging equipment
- Precise perforations for proper bag performance with automated equipment
- Can be used in manual packaging operations
- Meets FDA requirements for foodservice applications

11.2 POLY-NYLON VACUUM POUCHES

- Made of top quality laminated polyethylene and nylon
- Provide highest level of clarity and strength with good flexibility
- Triple-seal construction
- Excellent barrier properties for both oxygen and moisture vapor transmission
- Extends shelf life for a variety of food products
- Meet FDA requirements for food contact
- Boilable

POLY BAG DIMENSIONS

The first dimension stated when describing a poly bag is the width. All bag measurements are inside diameter (ID).

BAG TYPES	ORDER OF MEASUREMENTS
Flat Bags	Width X Length plus gauge
Side Gusset Bags	Width X Gusset X Length plus gauge
Bottom Gusset Bags	Width X Length X Gusset plus gauge

HOW TO MEASURE FOR:

DRUM LINERS

- Width = (the circumference of the drum divided by 2) + 2". It is easiest to use a flexible tape measure and measure around the widest part of the drum.
- Length = (height of the drum + the width [diameter] + 4". The extra 4" provides the extra material to fold over or tie the bag.

BOX LINERS

- Width = (the circumference of the box divided by 2) + 2". The circumference equals the sum of the length of each side.
- Length = ½ the narrow width + the height of the box. Add 5" to 8" extra material for fold over or tie off.

PALLET COVERS

- Width = (the circumference of the pallet divided by 2) + 4".
- The circumference equals the sum of the length of each side.
- Length = (½ the narrow width of the load + the height of the load) + 2"

DRUM LINERS

BOX LINERS

*Los Angeles, Atlanta and Chicago divisions

CUSTOM BAG PROGRAM

Regardless of whether you need many containers of custom bags delivered directly to your customer or a short run of a few thousand custom printed bags, Elkay has the resources to deliver both quality and value. With the ability to print up to 8 colors per side*, Elkay can make your most elaborate designs a reality.

Why put up with the limited custom capability of other manufacturers when Elkay can deliver the custom bags you need!

Helpful information to get started on your custom bag project:

- **What's the end use for the bag?**
- **What's the size of the item to be packaged?**
- **What is the item? Does it have sharp or jagged edges? Is it a heavy or light item? Is it bulky or compact?**
- **What thickness is required?**
- **Is the bag to be used in cold temperatures?**
- **Is clarity important?**
- **Will the bag or material be used with any special packaging equipment?**
- **Should the bag be colored? If so, opaque or translucent?**
- **Is printing required? If so, what are the ink colors? What % of coverage is required?**
- **Is a closure required (e.g., drawstring, seal top)?**
- **What 'put-up' is required: rolls, dispenser packs, inner packs, etc.?**
- **If possible, submit a sample of the bag with your request for a quote.**

Standard manufacturing tolerances apply to custom orders.

**8 colors printed per side dependent on bag configuration. Most bags can be printed up to 6 colors per side.*

THE ELKAY® DIFFERENCE

It's not just about manufacturing capacity. Your Elkay Sales Consultant has the training and experience to help your customer get the best bag for the job. Elkay Sales Consultants regularly work with our distributor customers and the end-user, coordinating with the Elkay Custom Department to find the best solutions to tough packaging challenges. Just a few of the variables that are considered when custom designing a bag include size, gauge, material, configuration, printing and, of course, what the bag will be used for. With over 3,000 in stock items and our vast custom manufacturing abilities, Elkay can be your one stop supplier for all of your poly bag needs.

SHORT RUN CUSTOM BAG PROGRAM

Even though we're known for our ability to produce large runs of complex custom bags, many people aren't aware that we also have the ability to produce smaller runs to your exact specifications in as little as two to three weeks, and at a very competitive price. Our Short Run Custom Bag Program can supply your customers with quantities as low as 50 pounds of product and can help them control their cash flow and inventory. Contact the Elkay Custom Department for specifics of this program.

Contact the Elkay Custom Team at (800) 631-6131 to get started on your custom project today!

Ordering INFORMATION

To view Elkay Plastics' complete Standard Conditions of Sale, please
visit **www.elkayplastics.com/termsandconditions**.

Elkay Plastics sells to authorized distributors. For information on
how to contact an authorized distributor in your area or to
apply to become an Elkay distributor, contact us at
(800) 809-8393 or visit **www.elkayplastics.com**.

TERMS AND CONDITIONS

MINIMUM ORDER: \$100 Net (a \$10 small order charge will be
added to orders of less than \$100).

TERMS: (On Approved Accounts) 1% 10 days, Net 30.

SALES TAX: Sales tax will be charged unless a current sales
tax exemption certificate is on file with Elkay.

DELIVERY: Freight prepaid on orders of \$750 or more for a single
shipment to the same destination. Orders less than \$750 are shipped
freight prepaid/add or freight collect. UPS shipments are prepaid/
add. Additional freight costs that may be incurred for inside
deliveries, lift gate, residential deliveries, or sort and segregate
activities must be paid by the Buyer.

INSPECTION: Buyer should inspect Products as promptly as
practical after receipt. However, unless earlier rejected or accepted, the
Products shall be deemed to be accepted 5 days after receipt by Buyer.

RETURNS: Incorrect shipments will be exchanged or refunded after
inspection by Elkay personnel if Elkay is notified within 5 days
of receipt of Products. Except for custom orders, other returns may be
made within 10 days of receipt and are subject to a standard 15%

restocking charge. Returns must be shipped freight prepaid. Buyer must
obtain return authorization and shipping instructions from our Customer
Care Department before returning Products.

PRODUCT WARRANTIES: Products are warranted for 90
days from the date of delivery to be free from defects in material
and workmanship and to conform to Elkay's published spec-
ifications applicable to such Products. Elkay makes no other
warranties, express or implied, including without limitation
warranties of merchantability or fitness for a particular purpose.
In no event shall Elkay's liability for breach of warranty exceed the
price of the Product involved.

DAMAGED SHIPMENTS: Although Elkay pallet wraps
almost all orders to protect them in shipment, damage in transit
occasionally does occur. If your shipment is damaged, write the
details on the bill of lading, put the shipment aside and notify the
freight carrier. It is the Buyer's responsibility to file a damage claim
with the carrier promptly after inspecting the shipment.

SAMPLES: As an additional service, samples are provided
free of charge for most Products listed in our catalog. However,
we reserve the right to limit quantities. Samples may be
requested via your Elkay sales representative or online at
elkayplastics.com.

CUSTOM ORDERS: Requests for items not found in the
catalog can be made through our Custom Manufacturing
Department. **Refer to page 40 for more information.**
